The City Traffic Control Division will be replacing the traffic signal controller cabinet at the 24<sup>th</sup> Avenue NW intersection with Hemphill Drive on Friday, February 10, 2012, weather permitting. After 9:00 A.M., the intersection will be controlled by a 4-way STOP sign. Signal operation should be restored before 1:00 P.M. The City of Norman has an annual program to replace and upgrade three (3) traffic signal controllers each year which is intended to improve the reliability, technology and maintainability of the City's system of over 130 traffic signals. This cabinet replacement is the last cabinet from the FYE 2012 cabinet replacement program.
